

# BRITISH SCIENCE WEEK

This week we have taken part in Science week. We have taken part in lots of investigations about changing state, particularly melting. Take a look at some of our photos to see what we have been up to!

From dry to wet! We made our own slime using cornflour, water and food colouring

We investigated what would happen to chocolate if it was left out in the sun compared to in the fridge

'It melted, the sun was hot' Annie

'The one in the fridge was hard' Louise

'The sun is hot like fire like the oven, it made it melt and sticky'

We made chocolate croissants to continue exploring our work on melting chocolate. They were scrumptious!
