# Dinosaur Planet

This half term we have enjoyed our topic Dinosaur Planet! We have learnt all about different species of dinosaurs, including what it was like the prehistoric period. We also enjoyed our trip to the Natural History Museum. To end our topic and show off our learning we created our very own museum! We planned our displays and invited year 6 and lots of teachers to come and see.

We had our very own fact files, fossils, and art and enjoyed being expert palaeontologists showing people around and teaching them all about dinosaurs!
