

**Year Group: Nursery**

**Week beginning: 24.4.17**

Next week we will continue to base our learning on different transport types and journeys.

We will be:

- Looking at different transport types and thinking about when we may have travelled on them.
- Choosing our favourite types of transport – why would we like to travel on them?
- Sorting different types of transport – how do they travel?
- Using junk modelling resources to create our own vehicles.
- Counting the different types of vehicle which we can see outside school.
