

Outdoor Fun!

Palm Class - October 2017

Palm Class had a fantastic fun filled afternoon outdoors making up their own game.

We were learning how to take turns, work together and be friendly and supportive towards our friends. We collected as many plastic balls as we could using wheelbarrows and transported them to the concrete area and positioned the large red cone on the grass hill. We took it in turns to aim our ball into the cone and counted our points!

We are looking forward to lots more outdoor learning this term with our brand new friends and are developing our throwing and catching skills.
